MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The financial statements and all information in the quarterly report are the responsibility of the Board of Directors and management. These financial statements have been prepared by management in accordance with International Financial Reporting Standards. Management maintains the necessary systems of internal controls, policies and procedures to provide assurance that assets are safeguarded and that the financial records are reliable and form a proper basis for the preparation of financial statements.

The Board of Directors ensures that management fulfills its responsibilities for financial reporting and internal control through an Audit Committee. This committee, which reports to the Board of Directors, meets with the independent auditors and reviews the financial statements.

The condensed consolidated interim financial statements for the six months ended December 31, 2019 and 2018 are unaudited and prepared by Management.

The Company's independent auditor has not performed a review of these condensed consolidated interim financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

1. NATURE OF OPERATIONS AND GOING CONCERN

GMV Minerals Inc. (the “Company”) was incorporated on May 18, 2006 under the Business Corporations Act of British Columbia. The Company’s shares are listed for trading on the TSX Venture Exchange under the symbol GMV.

The address of the Company’s corporate office and principal place of business is #280 – 1090 West Georgia Street, Vancouver, British Columbia, V6E 3V7.

The Company is in the exploration stage and its principal business activity is the sourcing and exploration of mineral properties.

The Company is in the process of exploring its principal mineral properties in SE Arizona and has not yet determined whether the properties contain ore reserves that are economically recoverable. The recoverability of amounts shown for mineral properties and related deferred exploration costs is dependent upon the discovery of economically recoverable reserves, confirmation of the Company’s interest in the underlying mineral claims, the ability of the Company to obtain necessary financing to complete the development and upon future profitable production or proceeds from the disposition thereof.

The Company incurred a net loss of \$310,131 (2018: \$236,132) for the six months ended December 31, 2019 and has an accumulated deficit of \$23,301,456 (June 30, 2019 - \$22,991,325) which has been funded primarily by the issuance of equity. The Company’s ability to continue as a going concern is uncertain and is dependent upon the generation of profits from mineral properties, obtaining additional financing or maintaining continued support from its shareholders and creditors. While the Company has been successful in obtaining financing in the past, there is no assurance that such financing will continue to be available or be available on favourable terms in the future. An inability to raise additional financing may impact the future assessment of the Company as a going concern. In the event that additional financial support is not received or operating profits are not generated, the carrying values of the Company’s assets may be adversely affected. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern.

These condensed consolidated interim financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying condensed consolidated interim financial statements. In assessing the appropriateness of the going concern assumption management is required to consider all available information about the future, which is at least, but not limited to, 12 months from the consolidated statement of financial position date. Management has carried out an assessment of the going concern assumption and has concluded that it is appropriate that the condensed consolidated interim financial statements are prepared on a going concern basis. Accordingly, these consolidated financial statements do not reflect any adjustments to the carrying value of assets and liabilities, or the impact on the consolidated statement of comprehensive loss and consolidated statement of financial position classifications that would be necessary were the going concern assumption not appropriate.

2. BASIS OF PREPARATION

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. As a result, certain disclosures included in the annual financial statements prepared in accordance with IFRS have been condensed or omitted. Accordingly, these condensed consolidated interim financial statements should be read in conjunction with the Company’s audited consolidated annual financial statements for the year ended June 30, 2019. In preparation of these condensed consolidated interim financial statements, the Company has consistently applied the same accounting policies as disclosed in Note 2 to the audited consolidated annual financial statements for the year ended June 30, 2019.

These consolidated interim financial statements include the accounts of the Company and its wholly owned subsidiaries, GMV Guyana Resources Inc. (“GMV Guyana”) and GMV Minerals (Nevada) LLC (“GMV Nevada”). GMV Nevada was incorporated on May 30, 2014 under the laws of the State of Nevada. All material inter-company balances and transactions have been eliminated upon consolidation. During the six months ended December 31, 2019 and 2018, GMV Guyana was inactive.

These unaudited condensed consolidated interim financial statements were approved by the Board of Directors on February 26, 2020.

3. RECLAMATION DEPOSITS

As at December 31, 2019, the Company had \$19,630 (US\$15,000) (2018 - \$19,041 (US\$15,000)) in trust as a reclamation security deposit with the Arizona Bureau of Land Management and \$28,302 (US\$21,626) (2018 - \$Nil) with the Bureau of Land Management for its exploration and evaluation assets on the Mexican Hat property in Arizona, US.

Mexican Hat Property

On May 14, 2014, the Company entered into a binding agreement with Norman A. Pearson to secure a 100% interest in a mining lease originally dated December 14, 2002. The Company has the exclusive right and privilege to explore and mine for certain material and the right to use the surface of the property as may be required for all purposes related to the prospecting, exploration, development and production of minerals from the property. The property consists of 40 unpatented lode mining claims situated in Cochise County, Arizona, USA. The lease remains in effect for the period that the claims are maintained in good standing.

The Company made the following payment to acquire the 100% interest in the mining lease:

- (a) Cash payment of \$40,000 (paid).
- (b) 50,000 common share purchase warrants at an exercise price of \$0.50 for a period of 24 months from the date of the agreement (issued).
- (c) 50,000 common share purchase warrants at an exercise price of \$1.00 for a period of 24 months from the date of the agreement (issued).

On April 27, 2015, the Company acquired 2 claims adjacent to the existing Mexican Hat Property. The mining property lease agreement was fully assigned to the Company.

On November 13, 2015, the Company acquired an additional 2 claims adjacent to the existing Mexican Hat Property.

8. MANAGEMENT OF CAPITAL

The Company defines capital as all components of shareholders' equity. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company is not subject to any externally imposed capital requirements.

The exploration and evaluation assets in which the Company currently has an interest are in the exploration stage; as such the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

9. RISK AND FINANCIAL INSTRUMENTS

The Company's financial instruments are categorized in a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company's financial instruments include cash and cash equivalents, accounts payable and due to / from related parties.

The fair value of cash and cash equivalents are determined based on Level 1 inputs, which consist of quoted prices in active markets for identical assets. As at December 31, 2019, the Company believes that the carrying values of accounts payable and due from / to related parties approximate their fair values because of their nature and relatively short maturity dates or durations.

Assets measured at fair value on a recurring basis were presented on the Company's consolidated statement of financial position as of December 31, 2019, as follows:

Fair Value Measurements Using				
	Quoted Prices in Active Markets For Identical Instruments (Level 1) \$	Significant Other Observable Inputs (Level 2) \$	Significant Unobservable Inputs (Level 3) \$	2019 \$
Financial Assets:

9. RISK AND FINANCIAL INSTRUMENTS (continued)

(a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations.

Concentration of credit risk exists with respect to the Company's cash and cash equivalents are placed with two major Canadian financial institutions. The Company is not exposed to significant credit risk on its cash and marketable securities as all have been placed with major financial institutions. The Company's concentration of credit risk and maximum exposure thereto is as follows:
